Thanks Ken. Our phones are down in the regional office right now, but I wanted to touch base with you and let you know that, while I won't be there on Friday, the EPA project manager, Melinda Garvey, will be there. I don't know that there is the need to put any focus on EPA's role, since it is a state-lead site of a federal facility, and our role is advisory, but Melinda can answer any questions you might have about our role specifically. I think the focus should rightly be on the State and Navy's activities to return the site to productive use.

Tomorrow is a federal holiday, so our office will be closed. Melinda will be in the office on Friday, and her number is 415-947-4184. I've copied her on this message so you can email her when you know the location.

Thanks for including me in this, and I look forward to seeing the story, and working on the second half with the folks at Hunter's Point.

Rusty

---

BTW – I know DTSC is the lead on this, but I wanted to make sure I gave EPA credit, where credit is due. Is there anything specific that I should be addressing? I am also available today, or tomorrow for an on camera interview.

Feel free to give me a ring.

Hi Ken:

Can you send me the time and location for the interview on Friday at Treasure Island? I won't be able to attend, but I know our project manager, Melinda Garvey, would like to be there, and I'm not sure she has all the details for the interview.

Thanks!

Rusty

Keith and Melanie –

Mary Simms from the EPA is out of town, and I wanted to follow-up with you two about doing an on-camera interview this Friday on Treasure Island. I am meeting with the Department of Toxic Substance Control and EPA on Friday to talk about the clean-up that has and needs to be done at TI. Would someone from the Navy be available to chat with me about the project? If Friday doesn't work, I am available anytime this week. I don't anticipate needing more than 15-20 minutes.

Regards,

Ken Miguel

Importance: High

Hi Melanie,

Just sending a note to follow up on the request from KGO to do a feature story on Hunter's Point.

Ken Miguel has coordinated with DTSC, the lead agency involved in the Treasure Island Cleanup and will be taping interviews in the coming weeks.

Could you please let us know the best way for Ken to coordinate with you and move forward in this request to tape on-site at Hunter's Point?

Mark Ripperda will be the subject matter expert who can speak on behalf of EPA. Since Ken is looking to do the interviews on-site and also would like to speak with a Navy representative could you please let us know potential dates that might work?

Many thanks!
Mary.

Subject: ABC-KGO TV News Special Projects to feature Treasure Island and Hunter's Point

Hi everyone,

Just wanted to send a heads up that Ken Miguel of KGO is interested in doing two upcoming (separate) feature stories on Treasure Island and Hunter's Point.

Here's what they're interested in:

- 1 – Treasure Island cleanup, and more specifically, the Dry Cleaner site clean-up.
 - how bad is it, what's the danger of PERC, how long to clean up, what's it going to cost, etc.
- 2 – Hunters Point clean up progress.
 - where are we at, what's next, how bad is it? Etc.

He'd like to do the interviews on-site at each location before the end of the month/early Nov. For EPA, Mark Ripperda (RPM on Hunter's Point) and Melinda Garvey (RPM at Treasure Island) are the experts we've identified to speak on-camera.

We recognize EPA isn't the lead role on either instance so we'd like to involve/coordinate with the respective agencies to help get Ken what he needs for the story.

As an FYI -- this is the same producer/reporter/photog who we recently worked with and did a great story on EPA's role at Iron Mountain Mine. Here's the story: http://abclocal.go.com/kgo/story?section=news/assignment_7&id=7628198.

Possible dates we're targeting for Treasure island are: October 28,29, or November 4,5. For Hunter's Point we're targeting the first week of November.

I'll send a second email to get all of the PIO's on one email-chain with Ken but wanted to make everyone is aware of this request so the appropriate POC's can coordinate. Please feel free to pass this information along to others if you are not the most appropriate contact.

Thank you,

Mary

Thanks Mark!

Keith, is there a PIO I should direct the reporter to, or would you
like
him to contact you directly?

Thanks,
Mary

Keith Forman is the lead Navy person. Even if he isn't included in the interviews, the reporter will need to coordinate access through him.

I'm available Thursday afternoon, October 28, anytime the week of November 1-5 (except for Tuesday morning November 2), November 9, 11, 12, 17 and 19.

Hi Mark,

Thanks very much for your message and getting back to me. If you and Melinda could please let me know what dates in the near future would work for on-site interviews at each location I can at least vet those dates with the reporter to see what might work for him. It's probably best to propose a few if possible and we'll probably want to schedule them on different dates. Once we work out a date, let's then meet to discuss messaging/etc.

The reporter understands EPA is not the lead agency to discuss either of these sites, but does want the Agency's perspective. If there are other contacts that you'd also be able to provide so we can share those with Ken and he can coordinate accordingly it would be much appreciated.

Many thanks!

Mary

Hi everyone,

Just wanted to send a heads up that Ken Miguel of KGO is interested in doing two upcoming (separate) feature stories on EPA's role at Treasure Island and Hunter's Point.

Here's what they're interested in:

1 - Treasure Island cleanup, and more specifically, the Dry Cleaner site

clean-up.

- how bad is it, what's the danger of PERC, how long to clean up, what's it going to cost, etc.

2 - Hunters Point clean up progress.

-where are we at, what's next, how bad is it? Etc.

He'd like to do the interviews on-site at each location in the next month or so. So, it would be good to identify potential dates and spokespersons as soon as possible. He'll also be talking to other relevant stakeholders/agencies and will welcome our direction/input in that regard.

As an FYI -- this is the same producer/reporter/photog who we recently worked with and did a great story on EPA's role at IMM. Here's the story: _

- http://abclocal.go.com/kgo/story?section=news/assignment_7&id=7628198.

These will likely be favorable stories for the Agency and we have a solid opportunity to shape the messaging. Please feel free to share this email with anyone I may have missed that should also be involved in

prepping relevant technical content/coordinating logistics/etc.

Thanks!

Mary
